Monthly Newsletter

January 2010

A Note from the Director:

Dear Parents,

Welcome back after the Holiday Season. We wish all our children and parents happiness, warmth and good health in 2010. The Holiday Season is still in the air and we see an atmosphere of joy and hope around us. This is also the time to make our new year resolutions. It would be a good idea to involve our kids too and foster some positive character traits in them! Children want to be part of things bigger than themselves, and they need grown-ups to create their vision. "The joys of giving are more rewarding than the joys of getting!" Our children have proved this during our Food and Toys Drive, we thank parents and children who donated very generously to the less fortunate, thus creating feelings of giving and sharing. Let us build in our children the values of empathy, gratitude, respect and generosity, and some humor to light up the hearts. Lets look for opportunities to build simple family joys and warm up the hearts. In the long run it is the gift of time and attention we give to our children that will be far more memorable than material gifts.

I wish you and your families a Very Happy New Year!

Sincerely,
Mrs. Madhu

Parents Corner:

Dear Parents,

We thank all those parents who shared information about their special celebrations with our children and teachers.

A word of caution: Parents, when you come to pick up your children, please keep an eye on them in the parking lot. We love our children and do not want any unhappy incident.

Lessons in the classrooms are closed after 2:30 so please do not allow your children to touch them at that time. This is very important to maintain classroom in order.
